

**SELF** **WHOLE, CONSCIOUS, FUNCTIONING PERSON.** All that takes place within SELF starts from the ENERGY BODY field (AURA), and is exhibited in cellular health of the physical BODY as well as mental health of the psychological makeup (MIND). Wellbeing of everything within SELF is dependent on the physical BODY cellular cycle. SOURCE energy (LIFE, as below) transforms SELF through the ENERGY BODY, ready to partner consciously when invited to intervene, replacing Karma (based on Darwinian adaptation) with new unity approach of direct transformation. *What if SELF is designed to live on Planet Earth indefinitely?*

**SOUL ENERGY** **SOUL** is the **POWER MATRIX** of SELF. Composed of (1) SOURCE energy (whole, knowing, loving, creating, multidimensional energy, LIFE), our reason for existing: combined with (2) TEMPERAMENT energy, our historic and distinctive individuality. SOURCE energy invigorates the ENERGY BODY, where transformation (not adaptation) of anything changes everything. SOUL connects at the heart (truth, timing, motivation, intuition). Energy wholeness of SOUL (“the whole, radiant being within”) is the basis for natural, total healing of BODY.

**BRAIN ENERGY** **BRAIN** is the **PATTERNING MATRIX** of SELF. BRAIN is responsible for effective function and maintenance of physical BODY and its systems, with emphasis on balance, harmony, and rhythm. Multidimensional BRAIN serves as the quality of consciousness transducer for MIND. (A transducer converts energy from one form to another.) All processes related to consciousness (form and subtle aspects) hinge on the cellular health of physical BODY. BRAIN FOLLOWS MIND, with BRAIN functional quality limited by state of MIND. BRAIN functions best at physical regulation with MIND perspectives (i.e., energy wholeness) that arise from unity with SOURCE (LIFE).

**MIND ENERGY** **MIND** is the **PSYCHOLOGICAL MATRIX** of SELF. MIND feels and thinks about its experiences, interprets everyday life as it happens, selects concrete and abstract choices, and reflects on life as it passes. Psychological states (intention, attitudes, perspectives, beliefs, feelings, imagination...) derive their energy from the ENERGY BODY. Health of MIND (psychological states) and cellular health of physical BODY (physiological states) directly interact and can override each other. Choosing an *energy-wholeness perspective* facilitates healing like nothing else! New kind of love for ongoing Planetary Transformation: *Entertain all possibilities while considering the highest interests of all concerned in any situation.* Loving SELF *enough* (as part of “all concerned”) is key!

**BODY ENERGY** **BODY** is the **PHYSIOLOGICAL MATRIX** of SELF. Physical BODY FOLLOWS MIND in its evolution. Healing the MIND heals the physical BODY! The ENERGY BODY field invigorates physical BODY which is designed to be *completely* self-replenishing. If a whole magnificent physical BODY is the template of SELF-perceptions, then physical BODY renews itself accordingly. SOURCE (LIFE) connects at the heart. Choosing unity with LIFE while opening heart to unlimited possibilities, cultivates conscious alliance, allegiance, and transformation of SELF toward Ascension (wholeness, complete SELF health). *What if there is no obsolescence designed into physical BODY?*
